Columbia Metals RoHS Policy

Columbia Metals is a metal stockholder specializing in non-ferrous alloys in rod, sheet or tube form. Columbia Metals do not supply electrical or electronic goods as defined by the European Union directive 2011/65/EU for restrictions on hazardous substances in electronics and electrical equipment, otherwise known as RoHS2, but do supply raw materials ("homogenous goods") which may be incorporated into electrical goods by others.

All material provided by Columbia Metals for incorporation into electrical equipment will be compliant with the limits set by the RoHS2 directive.

0.1% w/w maximum

Pb / Hg / Cr6+ / PBB / PBDE

0.01% w/w maximum

Cd

Unless otherwise explicitly certified and covered by an exemption from the directive.
